

NUMEROUS TAX TYPES. MANY JURISDICTIONS.

All processed and paid—accurately and on time—thanks to Anybill.

- ▾ Tax compliance and tax payment processing are best served by separate, but closely aligned, specialists. Like KPMG and Anybill. KPMG provides the compliance expertise; Anybill brings the best practices of its AP solution to corporate tax payments.

How it works

The process is elegantly simple.

1. Input

Anybill receives an electronic file with all your tax payment data from KPMG’s U.S. Indirect Tax Compliance Services group. You can access this information from anywhere at any time, simply by logging into your secure client section of the Anybill website via any web-enabled device.

2. Approval

E-mail notifications let you know that your payments are ready for review

and approval. You approve and Anybill does the rest.

3. Payment

In conjunction with KPMG, we send the payments and returns to the proper tax authorities. Payments will be made by paper check or ACH/EFT. Either way, status (along with the certificate of mailing, where appropriate) is always instantly available via secure client log-in.

Benefits

+ NATIONAL EXPERIENCE

Anybill processes billions of dollars in tax payments per month for the largest companies in the world. Indeed our service, technology, and reliability have made us the largest provider of such payments in the country. We understand the scale, complexity and importance of each compliance client.

+ EASILY ACCESS YOUR TAX HISTORY AND DOCUMENT ARCHIVE

Secure online access—we are SAS 70 Type II compliant—to your payment history lets you view cancelled checks, review prior payments and run summary reports and certificate of mailings.

+ ELIMINATE PENALTIES

Accidentally pay a vendor late, and the consequence is often just a little relationship mending. Pay taxing authorities late and there are always penalties, often stiff ones. Our tax calendar ensures accurate, timely payments.

+ STREAMLINE THE PROCESS

Leveraging our technology and enterprise production capabilities means accurate, timely payments—every time.

A Simple Process with Powerful Results
